

SL150BSW

150W LED 3-in-1 Moving Head Light

Description

The SL150BSW 150W LED 3-in-1 Moving Head Light is a versatile stage lighting fixture that combines color, gobo, and beam control in a single compact unit. Equipped with a high-power 150W LED, it delivers smooth, bright light with precise control over color, fixed and rotating gobos, focus, zoom, frost, and prism effects. Multiple operating modes, including manual, auto, sound-controlled, and console control, allow flexible usage for concerts, theaters, and events. The fixture also features advanced settings such as language switching, screen inversion, and temperature protection, ensuring reliable professional performance.

Features

- **Multi-Function Integration:** Combines color, gobo, rotating gobo, focus, zoom, frost, and prism effects in one fixture.
- **High-Power 150W LED:** Provides bright, energy-efficient illumination suitable for professional stages.
- **Flexible Pan & Tilt Control:** Smooth horizontal and vertical movement with fine-tuning and adjustable speed.
- **Versatile Operating Modes:** Supports Manual, Auto, Sound-Controlled, and Console modes.
- **Adjustable Offsets:** Allows fine-tuning for pan, tilt, color, gobo, focus, zoom, frost, and prism.
- **Advanced Settings & Protection:** Features language switching, screen inversion, usage time reset, and temperature protection.

Specifications

Model	SL150BSW
Voltage	AC100-240V, 50/60Hz
Power Consumption	250W
Light Source	150W White LED
Gobo	1 static Gobo wheel: 10 static gobos + white, supports rotation (flow) and shake effects. 1 rotating Gobo wheel: 6 interchangeable rotating gobos + white, supports rotation (flow) and shake effects, gobo self-rotation positioning.
Color	1 color wheel: 7 colors + white, includes half-color and rainbow flow effects.
Prism	3-facet prism
Zoom	7°–16° linear zoom
Dimmer	0–100% linear dimming
Strobe	0–20Hz, multiple strobe effects
Frost	1 independent frost filter, independent frost effect.
Focus	Electronic focus (auto-focus)
Display	LCD touch screen
Software	Software update via DMX connection
Channels	19CH
Control Mode	Console, Auto Run, Master/Slave, Sound Control
Pan/Tilt Rotation	Pan, Tilt, auto return correction
Protection Rating	IP20
Net Weight	10kg
Dimensions	480×290×210mm
