

SMART OFFICE SERIES MEETING SIGNAGE

Low Power / Easy To Use / High Efficiency / Eco Friendly

PRODUCT DESCRIPTION

Low Power 7.5 Inch Dual Electronic Ink Screen

- B/W/R 3 color E-paper ink screen
- Dual 7.5 inch display, fast refresh
- Multi-communication ways, EPD dot matrix electronic ink screen, paper-like reading
- Ultra-low power, Eco Friendly, avoid wasting paper.
- Not reflective, not dazzling, visible under the sun

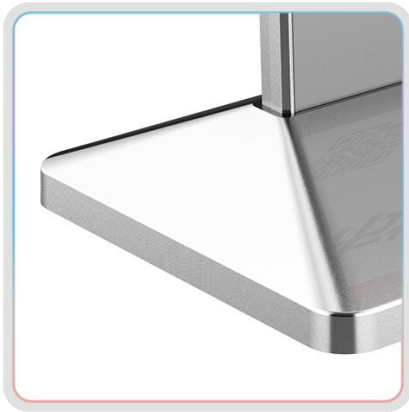

Ultra-Thin Design For Meeting Signage

The thinnest part is only 5.9mm
Ultra-thin design, Highlight the
sense of luxury

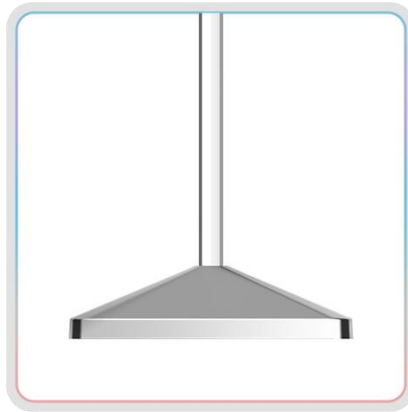

Hardware craft

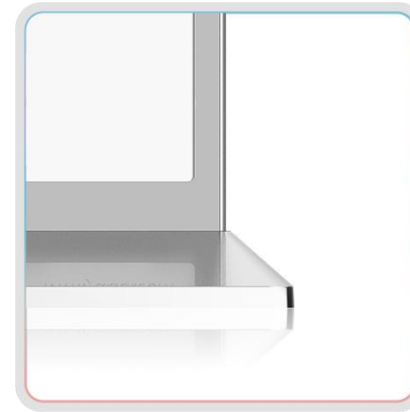

IML craft

Variable code In-mould printing technology, never fade, oil-proof, scratch-proof, anti-fouling, anti-off

Ultra-Big Base

Integrate the main board and battery compartment of the device to ensure long-lasting use for Meeting Signage

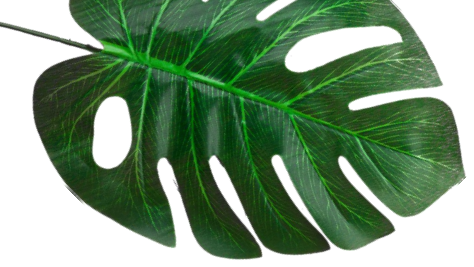

Anti-fall and wear-resistant

The fuselage and the cover are integrally formed, beautiful, anti-falling and wear-resistant, leading the industry

Ultimate material

More wear-resistant PVD coloring process
Better anti-fingerprint coating technology.

Multi-Color Available, Integrated Into Various Meeting Scenes Perfectly

grey

Silver

Walnut

Wood grain

Champagne gold

Long-Lasting Use

The Meeting Signage is equipped with 6 lithium batteries by default.

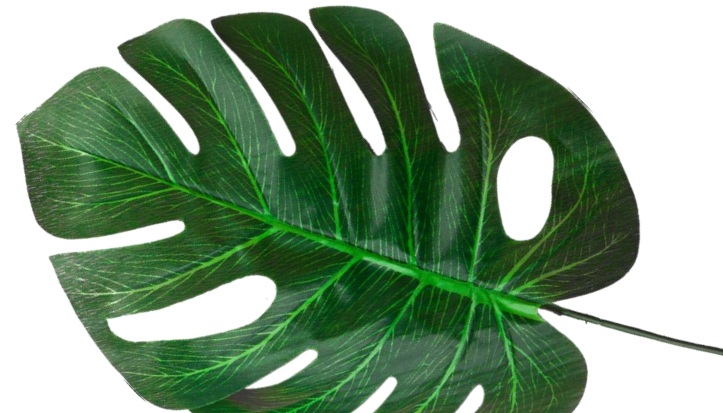

Combined with low power consumption, it can be used twice a day ,5 years of long-lasting battery life. It supports removable batteries.

Reusable

Single Meeting Signage can be **refreshed 100,000 times repeatedly**, high-efficiency refreshing, greatly reducing the time required for meeting venue layout

Eco Friendly

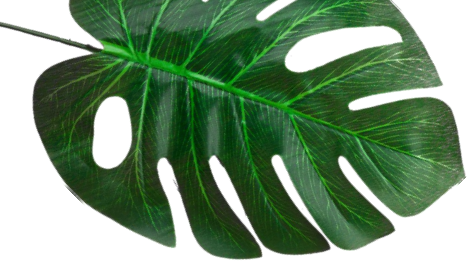

One-time investment, avoiding recycling paper waste effectively

A single Meeting Signage refreshed 100,000 times = 100,000 A4 papers reduced

COMMUNICATION MODE

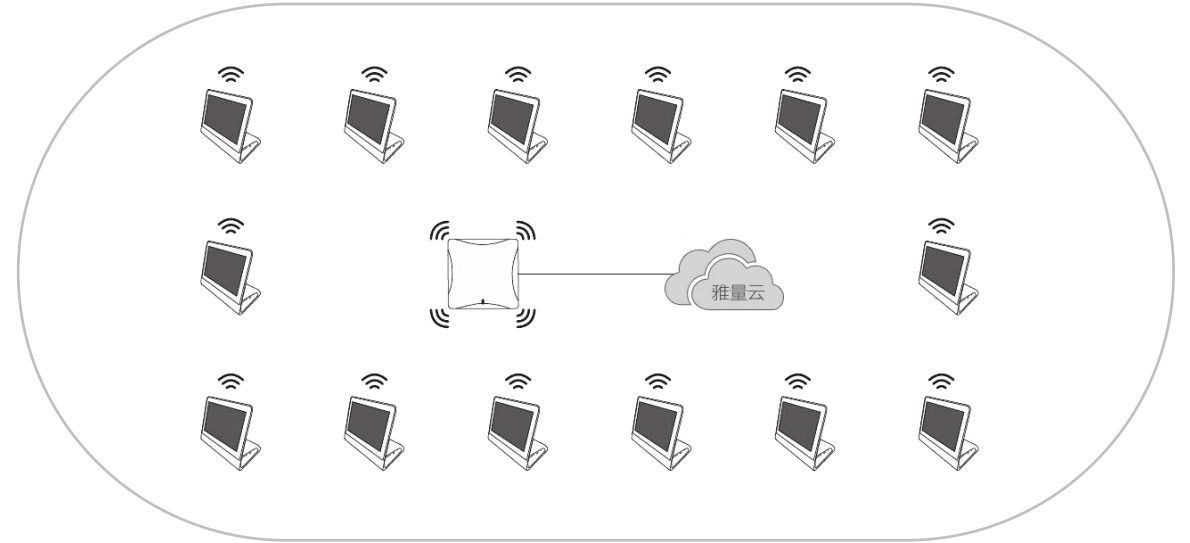

Unique dual wireless communication

- **Bluetooth 4.2 Version**

Based on Bluetooth 4.2 version, it can cover small meeting rooms, suitable for scenarios where there is no external network in the meeting room

With the Bluetooth box as the center, the maximum coverage range is 100m (further when the venue is open)

“Bluetooth Gateway”

- Lightweight design, easy to carry
- Built-in battery, can be charged by Type-C interface
- Support USB power supply
- Coverage range up to 100m (open distance)
- Frosted appearance design
- Firmware upgrade, lower cost

Bluetooth gateway program upgrade

“Protocol upgrade”

- Adopt low-power BLE protocol
- Realize long-distance, multi-device connection
- BLE Bluetooth data analysis and recognition optimization
- Bluetooth device search performance is more powerful

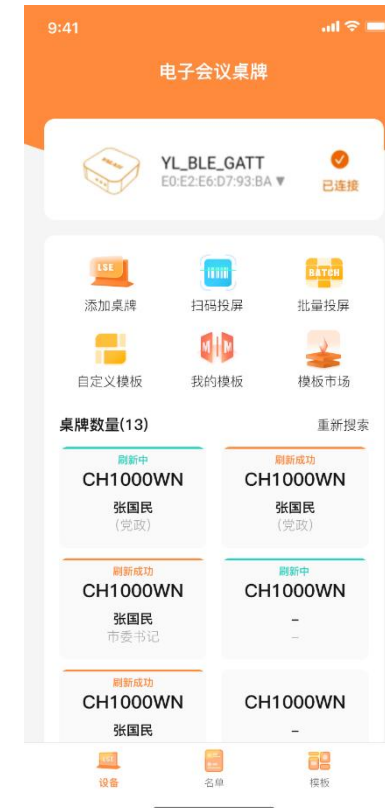

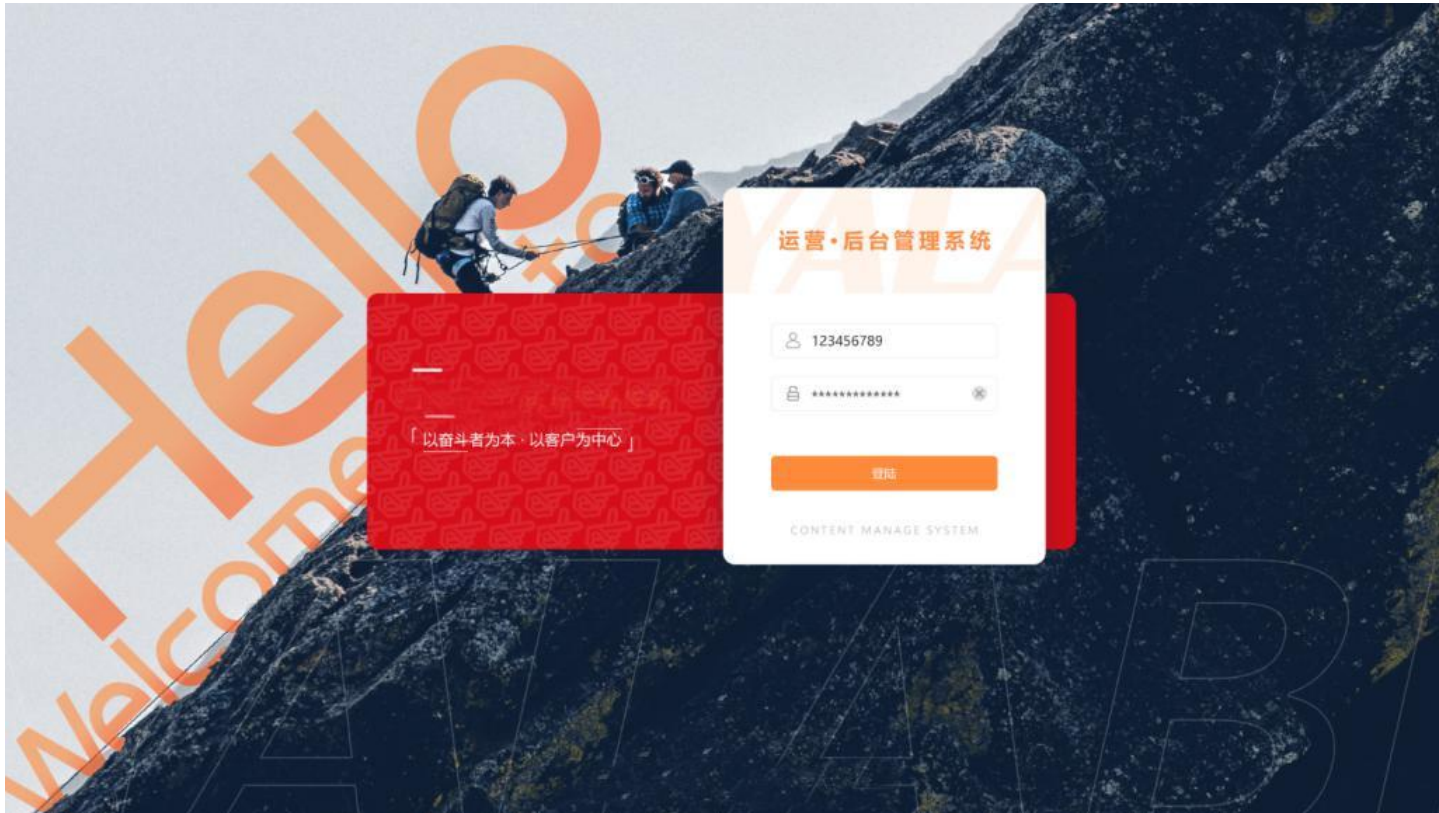

SOFTWARE PLATFORM

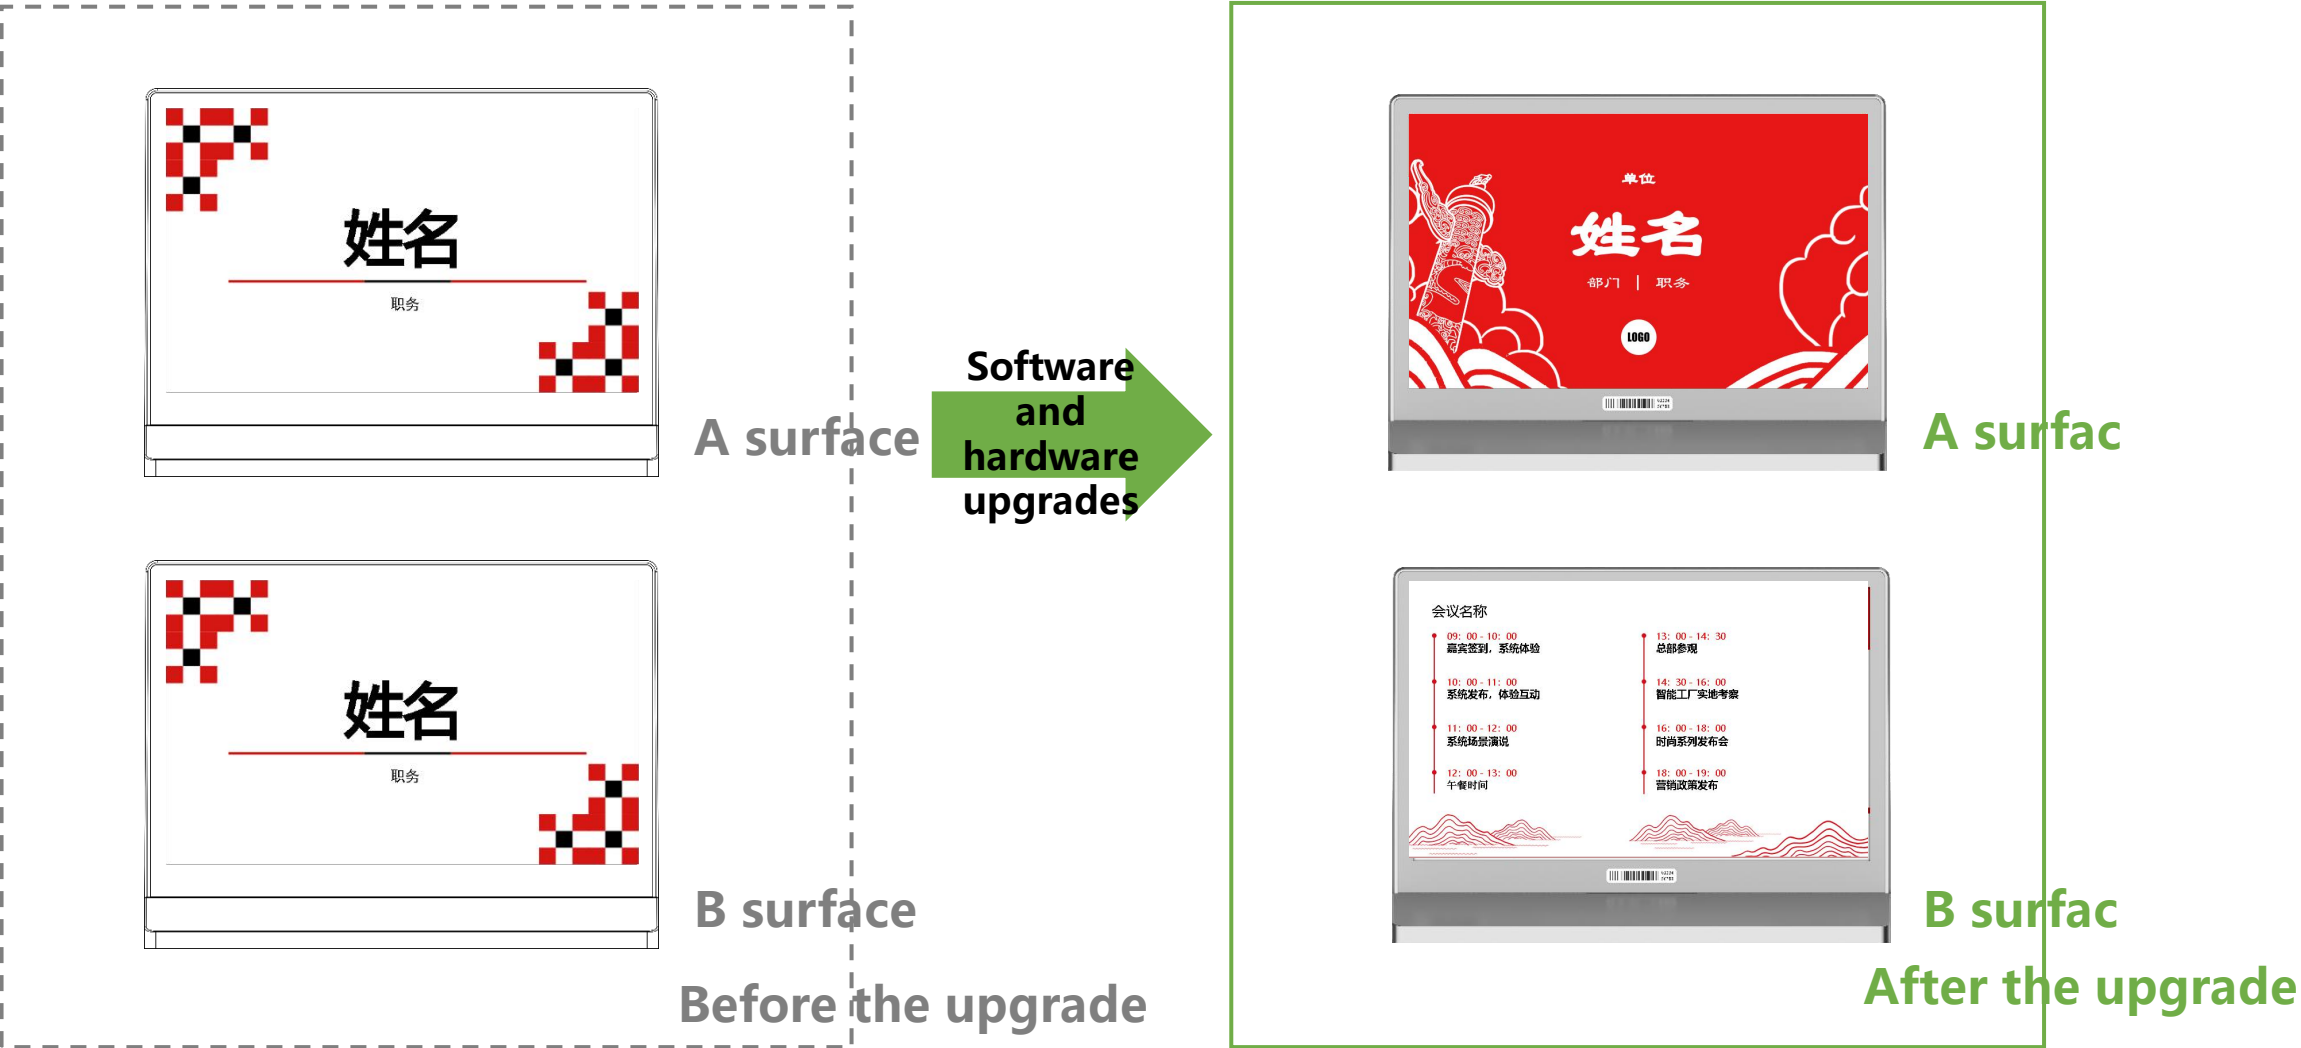

Multi-terminal control

Simultaneous support for web, applets, and apps
(Android/Hongmeng/iOS) Refresh

Two-sided different Showing

The system can distinguish AB double-sided
and issue two screens corresponding to the
Meeting Signage respectively

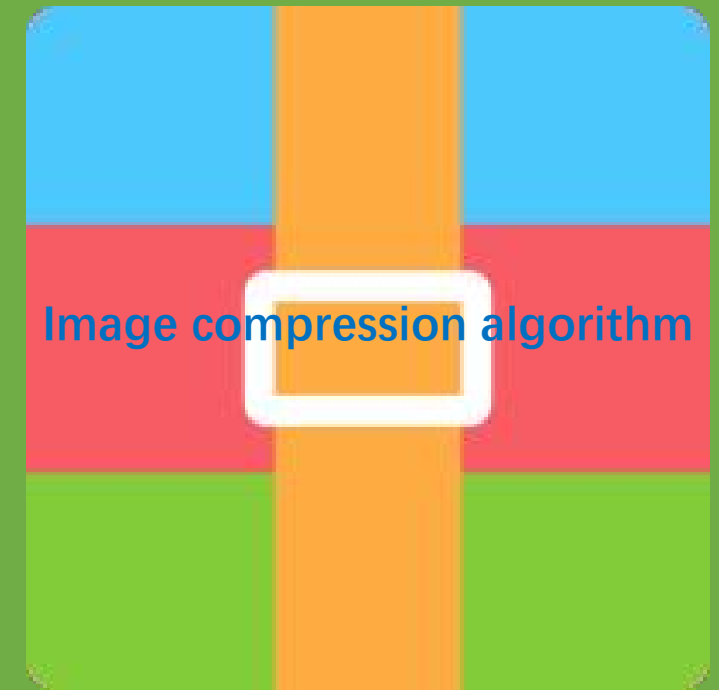

Faster Issuing Speed

On the basis of adding different templates for double-sided display, on the contrary, it has improved the speed of Meeting Signage refresh.

We use the latest high compression ratio algorithm, the efficiency of image transmission is improved, compared with the previous generation, and the performance of compression algorithm is improved by 3 times;

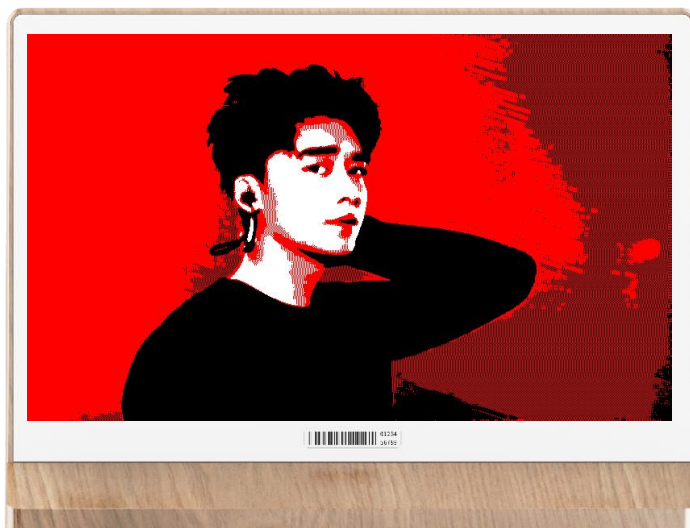

Batch refresh speed up to 100 slices/10min

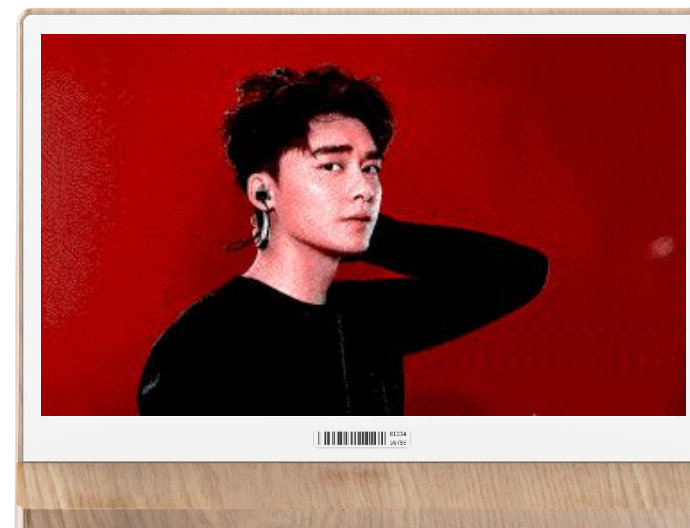

Picture optimization algorithm, the display effect is more vivid and true

Original Picture

**Before
optimization**

Optimized

Add custom templates on App

Built-in rich templates

All-round upgrade of Meeting Signage (software and hardware)

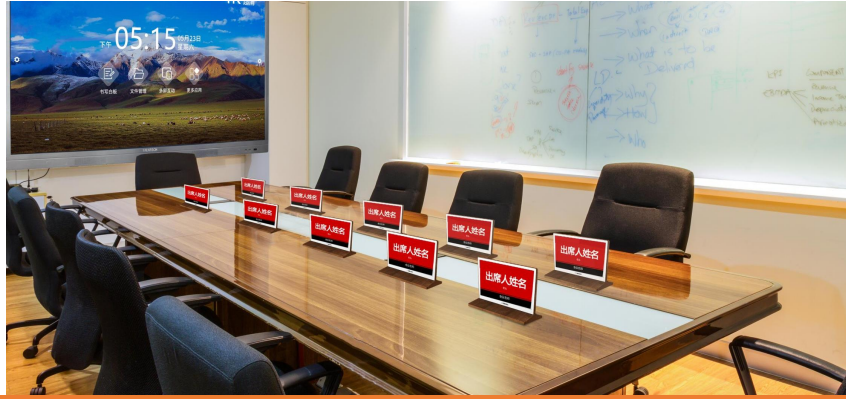

↑ 60%
• 硬件提升

↑ 80%
• 软件提升

SCENARIO APPLICATION

Various meeting scenes

Hospital Application Scenarios
