

D5810L

Wireless Desktop Rechargeable Microphone

Description

The D5810L Wireless Desktop Rechargeable Microphone features a sleek gooseneck design with a built-in lithium battery and Type-C fast charging. A full charge in approximately 1.5 hours provides over 10 hours of operating time. The integrated display shows frequency, battery level, and RF status in real time, while supporting high/low RF power selection and infrared synchronization. Its modern design and stable performance make it ideal for conference systems and professional sound reinforcement applications.

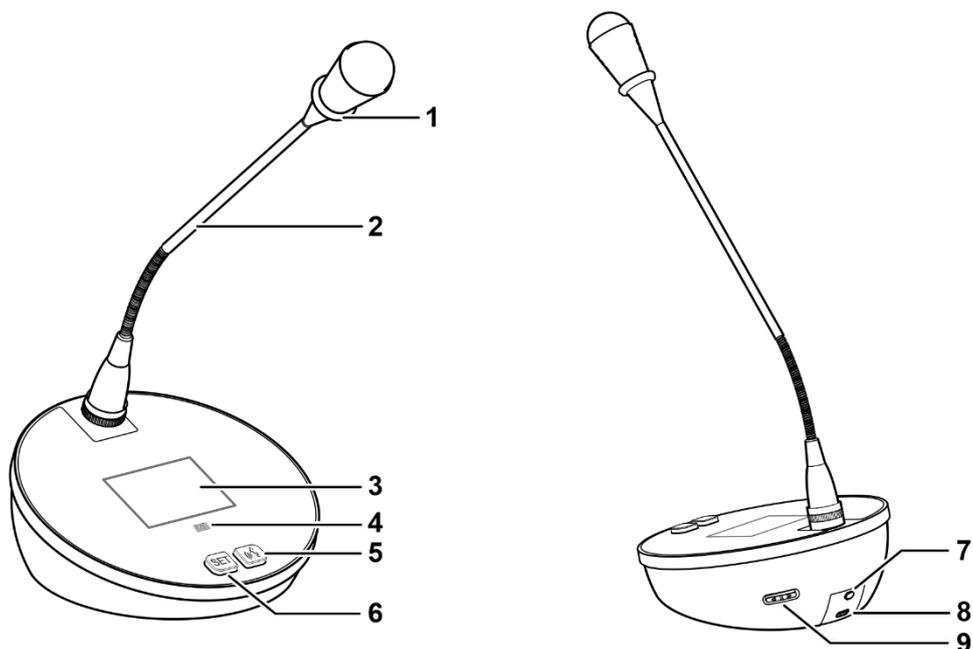

Features

- Gooseneck microphone.
- Display screen shows frequency, channel, RF signal strength, and volume level.
- Infrared frequency synchronization.
- Adjustable RF signal output power and volume level.
- Supports TYPE-C charging interface.

Specifications

| Model | D5810L |
|----------------------|---------------------------------------|
| Antenna Type | FPC Antenna |
| Output Power | High power: 10dBm; Low power: 2dBm |
| Spurious Suppression | -60dB |
| Power Supply | 3.7V/2000mA lithium battery |
| Battery Life | >10 hours at 10dBm; >15 hours at 2dBm |
| Display Type | Display screen |
| Product Dimensions | 142×142×65mm |
| Weight | 0.65kg |

Button and Interface Description
