

## D7615PDX

## Full HD Capacitive Desktop Conference Terminal

## Description

The device is designed with the industry-leading desktop architecture using integrated screen and host, and aluminum alloy ultra-narrow bezel. It is equipped with a 15.6" multi-touch high-resolution IPS display, and a 10.1" LCD name display on the other side to display name information, with a clear and bright display effect. It features a capacitive touch screen, so you can call the system office software for ink writing, and save the original handwriting of the original document when writing comments on the screen. It adopts pure network architecture with simple system wiring and easy commissioning and maintenance. It offers low power consumption, low heat generation and good heat dissipation, exquisite in surface treatment process, with an optimal balance between aesthetics and tactile experience.

## Features

- CPU: Intel Core I5 Generation 4 (As products are continuously upgraded, performance will be continuously optimized.).
- RAM: 4GB.
- Hard drive capacity: 128GB SSD.
- NIC: 1×Gigabit NIC, RJ45 connector.
- Standard interface: 2×USB (3.0/2.0), 1×DC port.
- Operating environment: Environment temperature: -10°C~50°C; relative humidity: 0%~95%, no condensation.
- Operating power: DC 17V/6.5A 120W.

## Specifications

Model	D7615PDX
CPU	Core I5 Generation 4
RAM	4GB
Hard Drive	128GB SSD
NIC	1×Gigabit NIC, RJ45 connector
Standard Interface	2×USB (3.0/2.0), 1×DC port
Operating Temperature	-10°C~50°C
Operating Humidity	0%~95%, no condensation
Operating Power	DC 17V/6.5A 120W
