

## D7673B

### Screen Meeting System Bluetooth Gateway

#### Description

The D7673B Bluetooth Gateway is an energy-efficient 2.4GHz wireless connectivity device. Boasting 20dBm max transmit power, 15m coverage radius, and <2.0W low power consumption, it delivers stable, reliable connections for electronic meeting nameplates and smart terminals in offices, meeting rooms, and commercial venues.

#### Features

- 2.4GHz Bluetooth band + built-in antenna for stable signal.
- 20dBm max transmit power, 15m wide coverage radius.
- 5V/2A Type-C power supply, convenient to use.
- <2.0W ultra-low power consumption, energy-saving.
- Wide temperature adaptability (0~60° C operating, -20~70° C storage).
- Reliable connectivity for electronic meeting nameplates and smart terminals.

#### Specifications

Model	D7673B
Frequency Band	2.4GHz (Bluetooth)
Antenna	Built-in Antenna
Transmit Power	20dBm (Max)
Power Supply	5V / 2A, Type-C
Power Consumption	<2.0W
Transmission Range	Coverage Radius: 15 m
Operating Temperature	0 °C ~ 60 °C
Storage Temperature	-20 °C ~ 70 °C
Product Dimensions	73.5 × 71.3 × 27.2 mm
