

D7733

All-Weather Passive Line Array Full-Range Loudspeaker

Description

The D7733 All-Weather Passive Line Array Full-Range Loudspeaker features a three-way configuration with dual 10-inch low-frequency drivers, a 3.5-inch mid-frequency driver, and a 1.75-inch high-frequency driver. It delivers natural, high-fidelity sound with strong projection and excellent clarity. With its robust enclosure and IP66-rated all-weather design, it ensures reliable performance in a wide range of indoor and outdoor applications.

Features

- Enclosure molded from polymer composite materials, with a five-layer waterproof and dustproof grille.
- Three-way design, delivering clear and delicate sound with strong penetration.
- All-weather design meeting IP66 protection rating.
- Three-point suspension mounting for easy installation.

Specifications

Model	D7733
System Configuration	2×10" LF, 1×3.5" MF, 1×1.75" HF
Frequency Response ($\pm 3\text{dB}$)	70Hz-18,000Hz
Sensitivity	101 \pm 2dB
MAX. SPL.	128 \pm 2dB
Input Impedance	8 Ω
Rated Power	500W
Directivity (H)	90°
Dimensions (H×W×D)	306×671×458mm
Weight	23kg
