

DA-BW600-Y12 Professional Oil-Based Haze Machine

Description

The DA-BW600-Y12 Professional Oil-Based Haze Machine delivers smooth, ultra-fine haze instantly, making it ideal for theaters, concerts, live events, and exhibitions. This is a haze machine that requires no warm-up, using highly efficient and stable air-compression technology to quickly produce a large volume of delicate, thin haze as soon as it's powered on. It provides adjustable airflow angle and fan speed for precise haze distribution, ultra-quiet operation for uninterrupted performances, and intelligent safety features that automatically stop the machine when the nozzle cover is closed. With consistent output and minimal fluid consumption, it ensures stunning atmospheric effects and enhances stage lighting with ease and reliability.

Features

- Produces fine, smooth haze with fast and even dispersion.
- Adjustable airflow angle and fan speed for greater flexibility and ease of use.
- No warm-up time required — instant operation with quiet performance and rapid haze output.
- Intelligent safety design: the machine automatically stops operating when the nozzle cover is closed.
- Built-in DMX control system for convenient remote operation.

Specifications

| Model | DA-BW600-Y12 |
|------------------------|--------------------------|
| Rated Voltage | AC220-230V or AC110-120V |
| Rated Power | 530W |
| Fuse | 5A/10A |
| Haze Output Adjustment | Not Supported |
| Maximum Haze Output | 3000 Cuft/min |

| | |
|-------------------------------|---------------------------------------|
| Continuous Output Capability | Yes |
| Oil Consumption (100% Output) | Approx. 22 Hours / Liter |
| Oil Tank Capacity | 3.2L |
| Fan Speed Control | 0 - 100% Adjustable |
| Fan Direction Adjustment | Supported |
| Onboard Manual Control | Digital Display Control Panel |
| Included Controller | R-2 & W-1 Wireless Remote Control Kit |
| Control Protocol | DMX512 |
| DMX Channels | 2CH |
| DMX Input / Output | 3-Pin XLR |
| Net Weight | 27.9kg |
| Gross Weight | 28.6kg |
| Product Dimensions | 500×370×410mm |
| Package Dimensions | 520×390×440mm |
