DA-F440X1

440W Manual Follow Spot

Description

The 440W Manual Follow Spot adopts a new, streamlined design, making it more practical, sturdy, and visually appealing. With a compact size, lightweight build, energy-saving features, and a highly efficient optical system, it delivers superior performance. Equipped with five powerful fans, it offers excellent heat dissipation and high brightness. The advanced optical system maximizes the bulb's light output. Additionally, it features mechanical shutter strobe, adjustable aperture, and focus, operated through a high-precision commutator for intuitive, convenient, and easy control. Its stable quality ensures reliable performance.

Features

● Features the latest design for practicality, sturdiness, and aesthetics
● Compact size and lightweight for energy efficiency
● Excellent heat dissipation and high brightness
● Utilizes Domestic Phoenix Light Core 20R 440W light source with a lifespan of 1000 hours
● Color temperature range of 3200K-4300K with vibrant colors
● 0-100% linear electronic dimming for flexible lighting control
● Electronic aperture adjustment from 5-100% for easy operation
● Strobe frequency of 1-10 times per second, suitable for various performances

- Effective projection distance of up to 100 meters
- Three axial fans optimize cooling for stable performance
- Built-in overheat and high-voltage protection for safety and reliability
- Waterproof rating of IP20, ideal for indoor use

Specifications

Model	DA-F440X1
Voltage	AC100V-240V / 50-60Hz
Power	460W
Light Source	Domestic Phoenix Light Core 20R 440W
Light Source Lifespan	1000 hours
Color Temperature	3200K-4300K
Color Rendering Index (CRI)	85
Beam Angle	8-15 Degrees
Aperture Size	Manual
Focus	Manual
Strobe	Manual
Color Change	Manual
Control Mode	Effective Range: 80-100 meters
Cooling	Three axial fans with optimized internal design for efficient heat dissipation
Protection	Built-in overheat protection, high-voltage trigger protection, safe and reliable
Fuse	10A
Material	New aluminum alloy and molded steel plate design, elegant and stylish
Net Weight	17 kg
Product Dimensions	870 × 350 × 470 mm
Waterproof Rating	IP20
