DP500V Interactive Smart Podium

Description

The DP500V Interactive Smart Podium features an integrated design inspired by the latest aesthetic concepts and international trends. It is assembled with ease from three sections: the upper, middle, and lower modules.

This model is a new-generation smart podium that brings together computer technology, touchscreen control, and electromechanical integration. It supports the synchronized display of video, audio, images, text, and other content, and includes automatic height adjustment. With intuitive touchscreen operation, users can easily manage all related control functions, making it a world-class multimedia lectern. By combining multiple functions in one unit, it enables speakers and hosts to deliver presentations with confidence and precision.

It allows presenters to fully express their ideas and enhances the professional presence of hosts from every angle. The DP500V Interactive Smart Podium is an essential facility for lecture halls, auditoriums, conference rooms, studios, reception rooms, and classrooms in schools of all sizes.

Features

- Embedded 21.5-inch touchscreen all-in-one PC
- Flush-mounted display, 10-point touch, 1080P HD resolution
- Motorized tilt adjustment of 10°–30° via electric push rod

conference@dsppa.com / www.dsppacs.com

- Gooseneck microphone, supercardioid pattern, adjustable gooseneck
- LED document lamp with desktop control switch
- Integrated desktop interface module (USB, HDMI, audio, LAN)
- V-shaped central column with rounded edges for safety
- Pull-out keyboard drawer with foldable mouse tray
- Ideal for classrooms, training rooms, multimedia lecture halls, and conference environments

Specifications

Model	DP500V
Structural Design	Steel / Aluminum / Plastic Composite, Three-section Design
Main Material	One-piece Molded Modified PE with Metal Reinforcement
Desktop Design	Embedded Desktop with Approx. 10° Tilt and Rounded Edges
Display Support	21.5-Inch Touch All-in-One PC (Optional)
Display Adjustment	Motorized Tilt, 10°-30°
Keyboard & Mouse	Pull-Out Keyboard Drawer with Foldable Mouse Tray
Integrated Devices	Touch Display, Gooseneck Microphone, LED Document Lamp, Laptop Interface Module
Microphone	Gooseneck Microphone, Supercardioid Pattern
Top Interfaces	USB ×2, HDMI ×1, Audio ×1, LAN ×1
Bottom Interfaces	HDMI ×2, Audio Output ×2, LAN ×2, Microphone Output ×1
Power Supply	AC110-240V, 50/60Hz
Overall Dimensions (L×W×H)	770 × 635 × 1150 mm (±5 mm, Closed Position)
