

## DSP4130

### 130W Passive Professional Column Speaker

#### Description

The DSP4130 is a compact, powerful, and high-SPL passive plastic speaker that is both lightweight and capable of delivering high power output. It is designed to meet a variety of sound reinforcement needs. Constructed with imported ABS plastic materials and a custom mold with a wall thickness of 6mm, this speaker enclosure ensures distortion-free sound quality even with high-power signal inputs. It features four 20-core 70-magnet subwoofers and a 1-inch neodymium magnet tweeter, which together provide an optimal effective acoustic volume and are finely tuned with advanced software. The sound reproduction is exceptionally accurate, bringing a robust and dynamic vitality to the listening experience for the audience.

#### Features

- Small volume, high power, high sound pressure level;
- Exclusive special mold with a wall thickness of 6mm;
- Imported ABS plastic material, perfectly presented;
- Suitable for conference rooms, multifunctional halls, banquet halls, lecture halls, etc;
- Available in two versions: passive, active type.

## Specifications

Model	DSP4130
Output Power(RMS)	130W RMS,260W Peak
Tweeter Type	Dome
Diameter Tweeter	1x1"
Diameter Woofer	4x3"
Magnet Type	Ferrite
Impedance	8ohms
Frequency Response	80Hz-20Hz
SPL@1W/1m	95dB
SPL MAX	113dB
IP Rating	IP44
Product Dimensions(W x H x D)	105×495×145mm
Net Weight	5.1kg
