

PL210

Passive Line Array Full-Range Speaker

Description

The PL210 is a compact yet powerful line array speaker, delivering clear and balanced sound across a wide frequency range (50 Hz–18 kHz). With 2×10" low-frequency units and 1×3" high-frequency unit, it achieves high sensitivity and a maximum SPL of 128 dB, with 650 W rated power, making it ideal for indoor venues such as auditoriums and multi-purpose halls. Its durable construction and flexible installation design ensure reliable performance in various professional applications.

Features

- Features two high-power 10-inch woofers and one 75 mm compression driver, integrated with a precision crossover network for optimized acoustic performance.
- The cabinet is made of professional-grade high-density plywood and finished with a wear-resistant polyurea coating, making it suitable for various indoor venues such as auditoriums and multifunction halls.
- Quick angle-adjustment mechanisms on both sides of the cabinet enable fast flying or stacking of multiple units, forming continuous array coverage for long-distance and uniform sound distribution.

Specifications

Model	PL210
System Configuration	2×10" LF, 1×3" HF
Frequency Response (±3dB)	50Hz–18kHz
Sensitivity	100±2dB
MAX. SPL	128±2dB
Input Impedance	8Ω
Rated Power	650W
Coverage (H×V)	120°×10°
Dimensions (H×W×D)	303×740×437mm
Net Weight	31kg
